

N50

INVICTUS

Defy the ordinary, embrace
the power of invictus

NX Boats was born from the dream of Jonas Moura, who has been passionate about the nautical world since a young age. With a modern headquarters and over 700 qualified employees, the company stands out as one of the largest shipyards in Brazil. Our boats sail across seas worldwide, conquering new territories and breaking barriers.

We are a global reference in innovation, design, and comfort. A new world is emerging, and NX Boats is part of this change.

The NX50 is the ultimate expression of luxury, versatility, and performance in a 50-foot yacht. Designed to adapt to different lifestyles, its customizable cabin offers configurations with two or three bedrooms and two bathrooms, combining privacy, comfort, and refinement.

At the bow, an exceptionally spacious area ensures practicality for anchor handling while also featuring an expansive sunbed and a table with seating for four, creating a perfect environment for relaxation and socializing.

The NX50 can be delivered in both HT and Fly versions, expanding its appeal to a wide range of boating enthusiasts. The cockpit galley stands out with an incomparable design, functional and versatile, equipped with a retractable 50-inch TV that transforms onboard experiences.

Complementing the entertainment, the aft section reveals a gourmet space with generous dimensions and a magnificent shower.

The swim platform can be fixed, submersible, or expanded with the innovative Fundeck submersible platform, providing extra leisure space with safety and convenience for accessing the water.

Performance is equally remarkable, with three propulsion options available; IPS, outboard, or inboard, powered by diesel or gasoline.

This flexibility ensures that each NX50 can be tailored to its owner's profile without compromising power, efficiency, or navigation excellence.

The NX50 was designed with one clear purpose: to create unforgettable moments of quality time with family and friends. More than just a yacht, it is an invitation to embrace freedom, sophistication, and boldness on the water. This is Invictus.
